Training and Assessment Units

18th July, 2011

To: Companies requiring people without suitable experience to undertake the GIQ Coal Induction

Please be advised that whilst the induction delivered will achieve the competencies required by Standard 11, your trainee is still new to the coal mine workplace environment.

As such you will need to manage the risk this presents.

For an underground mine, participants shall be trained and assessed against the following (7 units):

1. RIIOHS201A Work Safely
2. RIIERR205A Apply Initial First Aid
3. RIIGOV201A Comply With Site Work Systems
4. RIIRIS201A Conduct local risk assessment
5. RIICOM201A Communicate in the Workplace
6. RIIERR302A Respond to Local emergencies and incidents
7. RIIERR203A Escape From a Hazardous Situation Unaided

For a Surface mine, participants shall be trained and assessed against the following (6 units):

1. RIIOHS201A Work Safely
2. RIIERR205A Apply Initial First Aid
3. RIIGOV201A Comply With Site Work Systems
4. RIIRIS201A Conduct local risk assessment
5. RIICOM201A Communicate in the Workplace
6. RIIERR302A Respond to Local emergencies and incidents

Please complete the attached acknowledgement (page2) for each person you require to undertake the GIQ Induction and returning it with the Booking Form (page 3) to Lennon Training.

Yours sincerely

Donna Lennon
Business Manager
