An RSHQ approved provider of the Learning From Disasters course

01.

BACKGROUND

Developed by SIMTARS (RTO 45647) on behalf of RSHQ

The primary objective of this course is to learn from disasters, rather than learning about disasters. The course focusses on learning from failure patterns and trends in past disasters.

It seeks to revolutionise the industry's approach to safety, risk, and control by prompting participants to re-evaluate their existing assumptions and beliefs. The course incorporates learnings from [the 2019 Brady Review](#).

02.

STAGE ONE E-LEARNING COMPONENT

Learning from Disasters is delivered in two stages.

Stage One is the eLearning on-line component (please enrol directly with SIMTARS) that is self-paced and accessible through a Learning Management System managed by SIMTARS.

Note - It is mandatory that Stage One eLearning is completed before attending the Stage Two face-to-face workshop.

03.

STAGE TWO WORKSHOP

Stage Two is a practical one-day workshop delivered by an RSHQ-approved provider that will consolidate the knowledge from Stage One and apply additional contextualised learnings to reinforce the Stage One material.

Upon successful completion of the Stage Two workshop, attendees can claim 20 CPD points towards their Practicing Certificate.

04.
