RTO 1674

An RSHQ approved provider of the Learning From Disasters course

The primary objective of this course is to learn from disasters, rather than learning about disasters.

The course focusses on learning from failure patterns and trends in past disasters.

It seeks to revolutionise the industry's approach to safety, risk, and control by prompting participants to reevaluate their existing assumptions and beliefs. The course incorporates learnings from the 2019 Brady Review.

Learning from Disasters is delivered in two stages. Stage 1 is the eLearning on-line component.
(Please enrol with SIMTARS)
Stage 2 is a practical 1-day workshop delivered by an RSHQ-approved provider.

(note - Stage one must be completed to enter Stage 2)
